

# Help Us Protect Your Drinking Water!

Please join the Muskegon Source Water Protection Committee for a community presentation and discussion about this important project. The Water Filtration Plant services North Muskegon, Muskegon Township, Roosevelt Park, County Northside, Fruitport, and Norton Shores as well as the City of Muskegon. Water is withdrawn from Lake Michigan.

Water defines Muskegon and the surrounding communities. Protecting our drinking water therefore has implications for future land management decisions and recreation as well.

**Thursday, May 25, 2017**  
**1:30 pm – 3:00 pm**

Grand Valley State University  
Muskegon Innovation Hub  
200 Viridian Drive  
Muskegon, Michigan 49440

Please contact **Burt Straley** at 231.724.4105 if you have questions about this meeting.

The Muskegon Source Water Protection Committee was formed to create an action plan aimed at protecting our drinking water. The Source Water Intake Protection Plan is partially funded by the Michigan Department of Environmental Quality. This action plan can be so much more than just a plan to protect drinking water.

The public will have additional opportunities to provide input on the draft plan at two public meetings to be held in coming months. Comments may also be directed to the committee at [steve.pennington@tetrattech.com](mailto:steve.pennington@tetrattech.com).

**We want to hear YOUR THOUGHTS!**
